MAIN BODY OF THE MANUSCRIPT

The supreme news agency of Voice of America (VOA Persian) has issued an article [1] that is in the same line with this paper. In fact, that article from VOA Persian confirms this paper. Also His Majesty Crown Prince of Iran Reza Pahlavi has a saying from Atamalek Joveini about Iran Islamic Regime as “They came and dug and burned and killed and took away and went” [2] which approves this paper.

The supreme news agency of VOA Persian has also produced a program for its part of VOA Last Page that approves my recent papers titled “Criticism of the Current Science in the World” and “its 5 addenda”. In summary it was said in this program that Islamic Republic of Iran Regime tried to keep the Iran people away from the politics in all fields for the people not to think of politics and in this way the political rulers of Iran would have no competitor. For example, the celebrities were mentioned in this program to be the pattern for the people not to think of politics. In a large scale, we can see that the reason why Iran will not become anything is that all the Iran people think of things other than politics. Even Iran celebrities are nothing compared to the USA celebrities because they are not political. This program of VOA Persian news agency can be watched in its website [3]. Also it was said in this program that the reason why Iranian music are absurd and vulgar was that the politics is taken away from the music and as a result music has nothing to say. My articles can be read in my website [4]. The reason why Iran will not become anything in the science is that Iranian scientists are not political. I have said in my papers that Iran and I are nothing.

In the same line with the above program of VOA Persian, the reason for my schizophrenia (and

other mental disorders) is political. The government of Iran has made me crazy for me not to think of politics and in this way the political rulers of Iran will have no competitor. In this way I will always think of my schizophrenia and will not think of politics. One symptom for schizophrenia is that the patients like me do not marry. Other people, who do not have schizophrenia, marry and make themselves busy with family problems. When a man marries a woman, then he needs money to pay for the costs of family. Therefore, he must work and if he wants work then he must obey the rules of Iran government and he must not do anything against the regime of Iran otherwise he will lose his job. In this way no body protest against the Iran regime. The reason why I failed in all my aspects of life like education, work, friendship and family was political. This is the government of Iran who made these failures to me to make me crazy. The causes of schizophrenia are still unknown [5] and therefore the patient will always think of it and will never heal. Schizophrenia is a dangerous disease which can lead to suicide. Therefore, Down with Islamic Republic of Iran Regime. Islamic Republic of Iran Regime is also going to become dangerous for regional and international countries for its nuclear and missile programs and etc. Dear Eminent Mr. Former President of USA George Walker Bush has called Iran as the AXIS OF EVIL [6]. Also the Iran people suffer very much from economic problems in Iran and the conditions of Human Rights are very bad in Iran. I have previously said that my utopia is the same as the utopia of Stan Laurel and Oliver Hardy in their movie of “UTOPIA”. This saying of me was a joke and I want to clarify that my utopia is not their utopia. My real utopia is an advanced country like USA.

I want to correct my previous articles as the reason for my schizophrenia is not DEPRESSIVE REALISM. I have previously said in my articles of “Criticism of the Current Science in the World” and “its 5 addenda” that I am nothing and I have no intelligence and I will not become anything in the science and everybody knew these matters. The only reason for my schizophrenia is political as I said here in this article. I.e. the government of Iran has made me crazy such that I will always be busy with my schizophrenia and therefore I will not think of politics. Also I invite all Iranians to write review articles (and political articles) in scientific journals and conferences about the problems of Iran like my 6 articles of “Criticism of the Current Science in the World” and “its 5 addenda” as a type of civil disobedience. I know that writing such articles are politically dangerous but in this way Iran will advance.

CONCLUSION

The only way that I strongly suggest for the scientific, economic and general advancement and development of Iran in all fields is to make, regard and announce Iran as a state of USA (United States of America) officially and politically (and totally). I.e. Iran should make and regard itself as a state of USA (United States of America) politically (and totally). I have heard that this idea was first suggested by His Majesty Mohammad Reza Shah Pahlavi for Iran.
